

# Amha Kindu

I am a developer with over 4 years of experience in python and various other tech stacks. I have worked on various web development projects in my career, spanning from backend frameworks like ASP .NET, Nestjs, Flask, Django and FastAPI to frontend development with vanilla Html, CSS, Javascript and React.

King George VI st.

## EXPERIENCE

### Eskalate Africa Software Development S.C

4 kilo, Addis Ababa, Ethiopia — *Backend Developer*

MARCH 2023 - JUNE 2023

Worked on with C#/.NET, ridesharing algorithms, clean architecture

### Freelancing on Upwork,

Remote — *Full Stack Python Developer*

APRIL 2023 - PRESENT

Worked on projects with Django, FastAPI, React, Flask

## SKILLS

Python, FastAPI, Flask,  
Django, Machine  
Learning(Pytorch, Numpy,  
Pandas, Tensorflow, Sklearn)

Java, C/C++, C#, .NET

Html, css, Javascript,  
Typescript, Reactjs, Nestjs

MVC, Clean and Microservice  
Architectures

MySQL, PostgreSQL,  
MongoDB, Apache Kafka

Github/Git

## EDUCATION

### Addis Ababa Institute of Technology

5 kilo, Addis Ababa, Ethiopia — *Degree*

JANUARY 2019 - PRESENT

Bachelor of Science in Software Engineering

(Artificial Intelligence Specialization)

## LANGUAGES

English(Fluent)

Amharic(Native)

## PROJECTS

### Machine Translation — *English to Amharic Language Translation*

Trained a custom LLM model based on “Attention is all you need” paper

<https://www.github.com/amha-kindu/machine-translation>

### NFT Marketplace — *Platform to trade NFTs*

Blockchain powered web application with C#/.NET and Clean Architecture
